# Storage Pallets

Equipment storage at the building site or works' site, often neglected, is extremely important to lengthen its working life period.

Metalusa pallets are highly resistant and durable, having been developed bearing in mind transport and the organisation of the place at the warehouse.

Using Metalusa pallets, transport is ensured under the safest conditions, both for operators and equipment.

Storage space is organised vertically and horizontally in a speedy, safe manner.

Metalusa Palets also allow the movement of equipment easily and speedily, fostering the safety and good organisation of the space at the building site or works' site.

These dismantlable pallets are endowed with a removable storage frame.

The open pallets facilitate the storage of larger components.

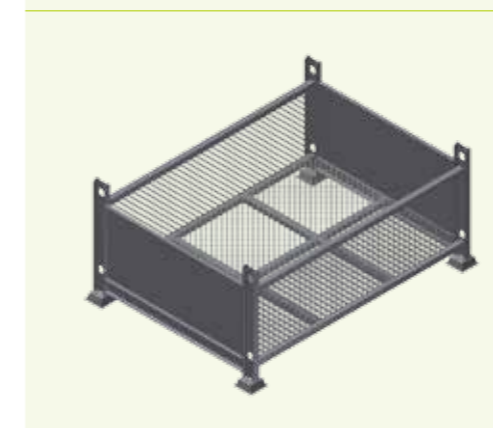

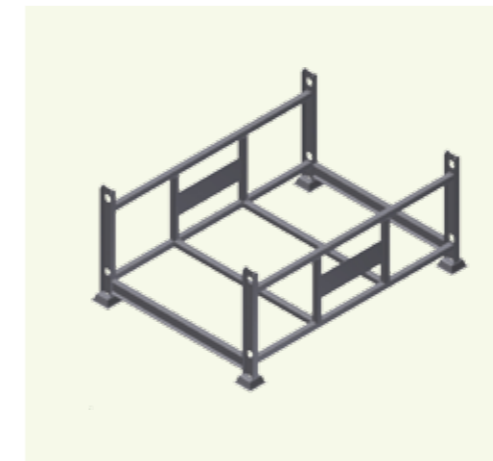

Closed pallets are suitable for smaller parts. They are resistant and easy to stack.

## Palletization

P0501	DUPAL	Weight (Kg)
<b>P050101</b>	<b>OPEN PALLET</b>	
P0501010001G	Open pallet 1500x1100x700 mm-BYG galv.	67,40
P0501010002G	Open pallet 1500x1100x700 mm-BYG Perso-galv.	67,40
P0501010003G	Open pallet 1500x1000x700mm-SPN-galv.	60,00
P0501010004G	Open pallet 1500x1000x700mm-SPN-Perso-galv.	60,00
<b>P050102</b>	<b>CLOSED PALLET</b>	
P0501020001G	Closed pallet 1500x1100x700 mm-BYG galv.	111,00
P0501020002G	Closed pallet 1500x1100x700mm-BYG Perso galv.	111,00
P0501020003G	Closed pallet 1500x1000x700mm-SPN galv.	90,00
P0501020004G	Closed pallet 1500x1000x700mm-SPN-Perso-galv.	90,00
P0501050001G	Pallet closes w/ divider 1500x1100x700mm galv.	130,00
